Abstract

We express an interest to Equivalent Numeric Approved Identity of Passport and Immigration Papers.
This document may fit the [Journal of Banking and Finance](#).

1 Introduction

The problem is **big**, and many are concerned. The truth is that : **A scanned (numeric) copy of your passport is not an approved certified passport for all bank systems!**

We need to updates some administration systems and rules, such that, your **scanned copy of passport**, may progress, through a valid system, to a new **numeric approved passport**.

References are available: [[Vog14](#)], [[Sos18](#)], [[RK24](#)], [[Cho22](#)], [[Abe05](#)], [[ABHC⁺16](#)], [[BO06](#)].

This document is a short note about the new Digital Secured Version (DSV) of your Passport, [read here](#).

2 Opportunities and Explorations

1. We suppose you are living in a foreign country, and you do not have neither access to a **phone**, neither a **computer**. What is the easiest way to get in touch with your family : a **public library**. We denote this case as **SCENARIO-1**.
2. We would like to apply the same scenario [**SCENARIO-1**] to your Passport. We suppose you are living in a foreign country, and you do not have neither access to your passport, or any **physical identity**, neither a driver license. what is the easiest way to connect to your bank account ?
 - As for example, we are in Canada, and our private **TD Bank** account is restricted from access via email, read [here](#),
 - Do not forget one rule, *you do not have a phone*,
 - In bank office, you can not connect without verifications, so you need an **Equivalent Numeric Approved Identity of Passport**, or an **Equivalent Numeric Approved Immigration Paper** verifiable based on a technology: this is what is called **Next Generation Identification Program (NGI)**.
 - Relevant and Important Documentations are available: [here-1](#), or [here-2](#), [here-3](#), [here-4](#), [here-5](#), [here-6](#), [here-7](#), [here-8](#).

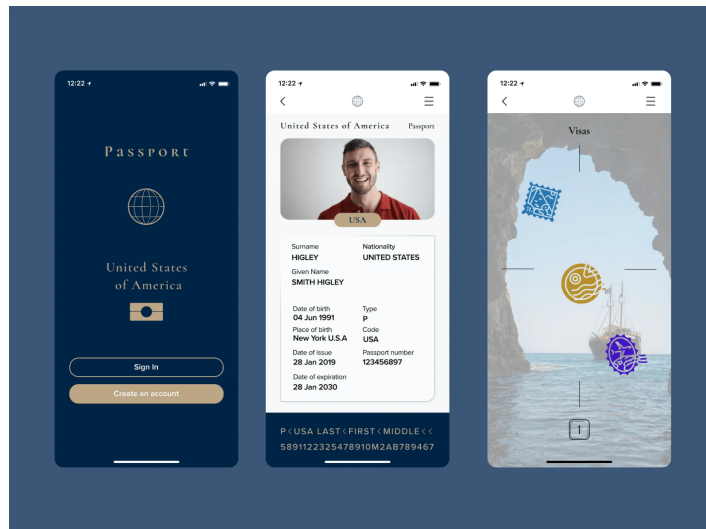

Figure 1: A Digital Passport, available [here-9](#).

3. Suppose that your Passport (in another scenario) is also being renewed, and your {email} is not enough to connect in a bank account, this paragraph is for **refugees**, look for figure 2. You can request a Digital Secured Version (DSV) of your Refugee Protection Document, or any or Valid Refugee Document (the Refugee Travel Document for example). DSV version will be official, and approved as **certified numeric authentication** document.
4. One missing point: **in case of emergency**, We need that our Digital Secured Passport (DSP) find a way to connect easily to our bank account or E-mail services without any other complicated process (such as 2-factor authentication [**always remember, we are in the case of no phone availability**])! A practical example is that we are able to connect sometimes on the Yahoo Server with a *second* gmail account, without a phone number (**we are very grateful for this gift from Google**), in any public library, **check here**.
